Background

- A. _____ is a teacher at _____ school/college
- B. In 2018 Wet Paper created a power point series for the 2019 Queensland Marine Science syllabus. Funds raised from financial contributions by 40 schools, as well as sponsorship have been applied to paying a teacher to be timetabled to 0.6 at school to develop 90 Yr 12 power points. This funding has enabled the year 12 power points to be sold at a significantly discounted rate to those who helped.
- C. The school has now requested a revocable, non-exclusive, non-transferable licence to modify these year 12 power points, as well as distributing the matching study guide pdf's to students at the school.

It is agreed

1. Licence period

1 January 2019 – continuous

2. Grant of licence

- 2.1 The publisher grants to the school a revocable, non-exclusive, non-transferable right and licence to modify for classroom use the power points listed in Schedule 1 for the sole purpose of creating further power point presentations, exercises, lab and field work lesson notes within the school.
- 2.2 The title to, and intellectual property in these online resources rests with the copyright owners identified in each power point and nothing in the Agreement should be construed as transferring those rights to the school.
- 2.3 Payment for this licence shall not constitute ownership.

3. Warranty

- 3.1 The school warrants to the author and the publisher that they will not distribute, provide or on-sell either image or text metadata or any reproductions of the author's resources listed in Schedule 1 to any other school, organisation or person outside the school community.
- 3.2 In 2019, the publisher will deliver Unit 3 (F50P), by download link in the last week of Term 3 and the remainder of Schedule 1 in the last week of Term 4 if sufficient funds can be raised.
