

INTRODUCING

WET PAPER

Publishers of Marine Studies Educational Curriculum Materials and Providing Expert Consultation in:-

Development of curriculum materials

Training of teachers

Publication of books and student notes

Specialist consultancy work

Our Background

Wet Paper is a business partnership which began publishing Marine Studies Curriculum Materials fifteen years ago. Our experienced authors are practising teachers who have taught marine studies in Queensland classrooms for many years. The result is a blend of curriculum materials that incorporates the very best ideas from Australia and overseas for classroom use.

Our Major Clients

Our extensive experience in curriculum development work for a number of major organisations has assisted them enhance their desire to educate people about the sea.

- ☐ **Sea World's Project Neptune.** We wrote and published 35 student projects which focussed this organisation's ability to involve primary and secondary students in their daily program. We assisted also with teacher in-service and adult education.
- ☐ **Gold Coast City Council Beach Education Project.** We developed a public education programme involving a local residents brochure, school beach projects kit and classroom activities, instructional videos and a school visit program. In addition we assisted in the operation of a public information centre.
- ☐ **Great Barrier Reef Marine Park Authorities Project Reef Ed.** We helped a team of teachers write over 400 Barrier Reef activities that can be done on an excursion to the reef.
- ☐ **UNESCO Project Pacific.** Wet Paper was contracted to develop a syllabus, conduct teacher inservice and produce sample workprogrammes and a navigation textbook for teachers in Western Samoa, Fiji, Papua New Guinea, Tonga and New Zealand. This year we have a new contract to train two teachers from the Pacific as master teachers in marine studies.
- ☐ **The Board of Senior Secondary School Studies.** One of our authors is at present assisting the Marine Studies Subcommittee write objectives and conduct in-service for their new Marine Studies Syllabus being trialled in 14 Queensland schools.

Our Publications & Curriculum Materials

Wet Paper has successfully published, marketed and sold to over 1000 Australian schools a series of student textbooks, classroom notes, project materials & exam papers.
