Wet Paper E book Flyer August 2015

In 2015
our
marine education
publications
went
digital

We created two types of books

Rented or printable

Rented books are read from our web site

for one year

A rental book is called a flipbook, has the code FR and is designed for students who have a laptop or a tablet

The student is able to

Read the book while connected to the internet

Use a table of contents to locate chapters

Search for words or phrases

Bookmark sections

Zoom in and out

In a rented book (code FR)

The teacher buys a key on line, registers with our web site and then gives out the key to up to 29 students for a 12 month rental period.

Additional users can be purchased during the rental period.

The teacher registering can then view a log as to how many times students view the book.

Printable books are kept by the school

for all time

A printable book is also called a flipbook, has the code FP, and has been designed for one user (the teacher).

This allows it to be printed to a computer as a pdf file and kept for all time or the content copied from our web site for 12 months.

Standard school copyright rules apply but if you wish to reproduce or communicate MORE than 10% at any one time, just send us an email to gain written permission.

In other words, its just like any book you bought for the school in the past, only this time it's in a digital format.

Proceeds from sales of flipbooks pay internet costs to ensure this unique body of education work is available for future generations.

More information is available at

www.wetpaper.com.au

Our
on-line books
contain
over
5000 activities
in marine education

The pages that follow detail what is available from

www.wetpaper.com.au

Marino Science

For Australian Students

Code: F 01R Marine Science for Australian Students

Price: \$150 per yr

Users: 30 Pages: 608 pps

Chapters: 22

Best suited for students who want to go on to tertiary studies.

Activities

Over 600 questions, lab experiments, projects and field exercises

Contents

Part A Oceanography

- Ch 1 Ocean and coastline formation
- Ch 2 Oceans and waves
- Ch 3 Currents and weather
- Ch 4 Coastlines
- Ch 5 Coastal engineering
- Ch 6 Seawater
- Ch 7 Marine pollution

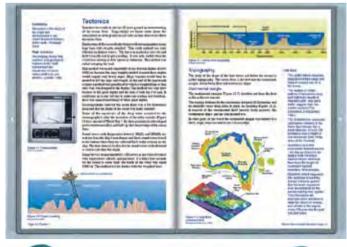

Part B Marine biology

- Ch 8 Classification and marine biodiversity
- Ch 9 Marine plants (1)
- Ch 10 Marine plants (2)
- Ch 11 Marine invertebrates (1)

- Ch 12 Marine invertebrates (2)1
- Ch 13 Marine vertebrates (1)
- Ch 14 Marine vertebrates (2)
- Ch 15 How they survive
- Ch 16 Ecosystems

Part C Management and conservation

- Ch 17 Problems in our seas
- Ch 18 Sustainable use of the sea
- Ch 19 Biodiversity and protecting marine
- Ch 20 Fisheries biology
- Ch 21 Aquaculture
- Ch 22 Marine parks

Code: F 15P Marine Science chapter questions

Price: \$60 Users: 1 Pages: 90 pps

Teachers Information

Suitable for teachers who want to cut and paste into a word processing program

- questions
- · exercises and
- · laboratory investigations

from F 01R Marine Science for Australian Students.

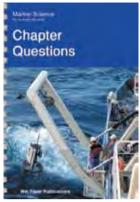

You have 12 months to download or copy the file from our web site.

Over 400 questions

Use on school intranet

You can place the pdf file on the school server and then get students to download the questions for revision, homework or when you are away.

Code: F 02P Marine Science suggested answers

Price: \$70 Users: 1

Pages: 108 pps

Teachers Information

Suitable for teachers who want a copy of the answers to (F01) Marine Science Textbook

Activities

This pdf file contains over 400 suggested answers and improvements to the text.

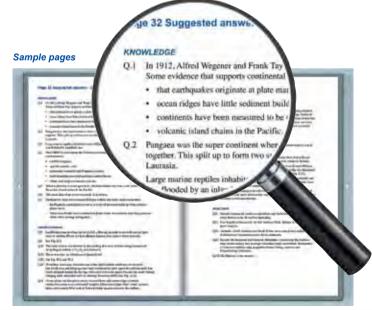

Use on school intranet

You can place the pdf file on the school server and then get students to download the questions for revision, homework or when you are away.

Warning to students

 Our web page warns students that we monitor sales of this product and notify schools of student purchases.

Price: \$90 per yr

Users: 30 Pages: 64 pps

Teachers Information

Suitable for schools who want notes and activities for preparation to marine radio licence.

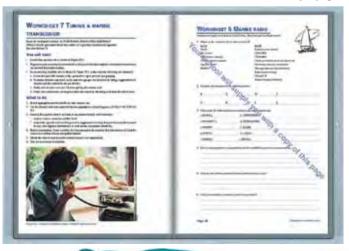

Contains 24 Activities and worksheets. A Marine Science syllabus match is available on our web site.

Contents

- Ch 1 Introduction
- Ch 2 Principles of radio transmission
- Ch 3 Emergency position indicating radio beacons
- Ch 4 Marine radio equipment
- Ch 5 Types of marine radio
- Ch 6 Digital selective calling (DSC) communications

- Ch 7 Marine radiotelephony procedures
- Ch 8 Alarm signals and distress communications
- Ch 9 Urgency, safety calls and signals
- Ch 10 Keeping your radio working
- Ch 11 Marine rescue and public correspondence

Code: F 04P Marine radio worksheets

Price: \$120 Users: 1

Pages: 30 pps

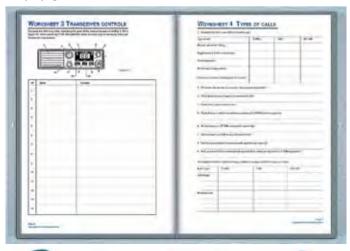

Teachers Information

This is a printable version which is designed to be used with our Marine Radio flipbook (F03R). Written answers can then be recorded by students as they read the book on line and then checked from the answer booklet - F05P.

Worksheet titles

- 1 Principles of transmission
- 2 EPIRB
- 3 Transceiver controls
- 4 Types of calls
- 5 Digital selective calling
- 6 Marine radio
- 7 Tuning a marine transceiver8 Sending a message
- 9 Phrases and meanings
- 10 Phonetic alphabet11 Radio telephony alarm signals
- 12 Distress signals
- 13 Mayday research questions
- 14 Mayday
- 15 Pan Pan

- 16 SAY-CURE-E-TAY
- 17 Find-a-word puzzle
- 18 Connecting a 27mhz transceiver
- 19 Installation and faults
- 20 The battery
- 21 Make a reference card
- 22 Logging of messages
- 23 Review questions
- 24 Theory test
- 25 Revision test

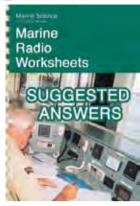

Code: F 05P Marine radio worksheets suggested answers

Price: \$30 Users: 1 Pages: 30 pps

Teachers Information

Suitable for teachers who want a copy of the answers to (F04) Marine Radio worksheets.

Activities

When printed out, this pdf file contains the suggested answers and improvements to the Radio workbook.

Use on school intranet

You can place the pdf file on the school server and then get students to download the questions for revision, homework or when you are away.

Warning to students

 Our web page warns students that we monitor sales of this product and notify schools of student purchases.

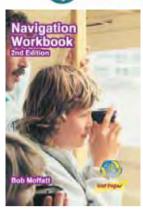

Code: F 06R Navigation workbook

Price: \$90 per yr

Users: 30

Pages: 64 pps

Teachers Information

Suitable for students who do not want to do tertiary studies and want simple mathematics. Not suitable for TAFE

navigation courses.

B YOUR

Activities

This flipbook describes the original Navigation content, exercises and activities used in Australian schools.

Contents

Ch 1 Introduction

Ch 2 Pilotage

Ch 3 Navigation Equipment

Ch 4 Charts

Ch 5 Chart Work

Ch 6 Magnetic effects

Ch 7 Charting your course Ch 8 Position Fixing

Ch 9 Radar and GPS

Code: F 07P Navigation worksheets

Price: \$120 Users: 1 Pages: 36 pps

Teachers Information

Suitable for students who do not want to do tertiary studies and want simple mathematics.

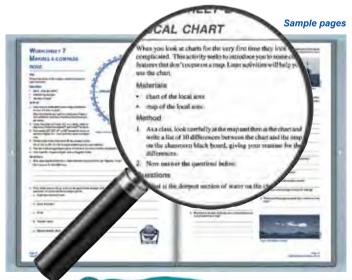

By printing out the worksheets, written answers can be recorded by students as they read the book on line and then checked from the answer booklet - F08P.

Worksheet titles

- 1 Research and review
- 2 Library/internet research
- 3 Questions
- 4 What day is it?
- 5 Magnetic fields
- 6 Using a hand bearing compass
- 7 Making a compass rose
- 8 Your local chart
- 9 Hypothetical Bay
- 10 Your own chart
- 11 Chart features
- 12 Latitude, longitude, nautical miles
- 13 Distance, speed and time

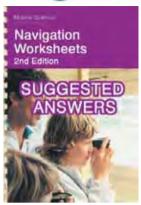

- 14 Compass conversions
- 15 LOP's
- 16 Compass courses
- 17 Chartwork
- 18 Position fixing
- 19 Laying off and plotting
- 20. Set and drift
- 21. Choosing an objective
- 22. Where are we?
- 23. Rule of twelfths

Code: F 08P Navigation worksheets suggested answers

Price: \$50 Users: 1

Pages: 30 pps

Teachers Information

Suitable for teachers who want a copy of the answers to (F07) Navigation worksheets.

Activities

When printed out, this pdf file contains the suggested answers and improvements to the Navigation workbook.

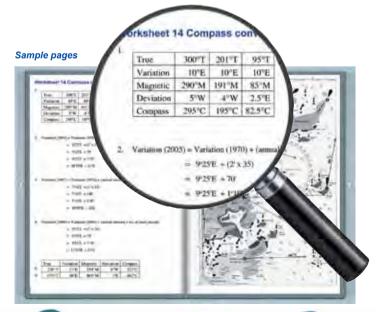

Use on school intranet

You can place the pdf file on the school server and then get students to download the questions for revision, homework or when you are away.

Warning to students

Our web page warns students that we monitor sales of this product and notify schools of student purchases.

Code: F 10R Navigation and Communications

Price: \$90 per yr

Users: 30 Pages: 54 pps

Teachers Information

Suitable for MARINE SCIENCE Marine Skills syllabus topics and students who want to go on to tertiary studies. A Marine Science syllabus match is available on our web site.

Activities

Contains 9 worksheets specifically for the Marine Science Syllabus topic - *Marine Skills*.

Contents

- Ch 1 Navigation devices and their use, marine radio procedures
- Ch 2 Buoyage systems, IALA Buoyage A, navigation directives
- Ch 3 Establishing research sites. Research bay, Locating a research site, ompass conversions, calculating a course to steer, plotting a set of waypoints, position fixing, set and drift, using a smart phone compass

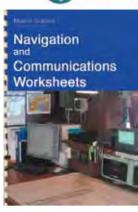

Code: F 11P Navigation and communications worksheets

Price: \$120 Users: 1

Pages: 17 pps

Teachers Information

Suitable for MARINE SCIENCE *Marine Skills* syllabus topics and students who want to go on to tertiary studies.

Worksheet titles

- 1 Navigation devices
- 2 Communication devices
- 3 Communication procedures
- 4 IALA Buoyage A
- 5 Locating a research site
- 6 Planning a voyage
- 7 Plotting a set of waypoints
- 8 Position fixing
- 9 Set and drift

Matches exactly the Queensland Marine Science Syllabus

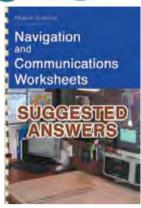

Code: F 12P Navigation and communications worksheets answers

Price: \$30 Users: 1

Pages: 17 pps

Teachers Information

Suitable for teachers who want a copy of the answers to (F11) Navigation and communications worksheets.

Activities

When printed out, this pdf file contains the suggested answers to F11P Navigation and communications worksheets.

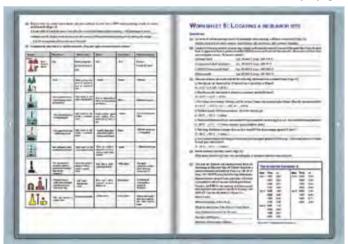

Use on school intranet

You can place the pdf file on the school server and then get students to download the questions for revision, homework or when you are away.

Warning to students

 Our web page warns students that we monitor sales of this product and notify schools of student purchases.

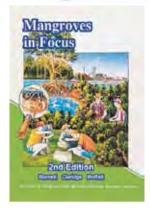

Projects

Mangrove leaf sections, Growing mangroves, Pneumatophore morphology and distribution, Seedlings and salinity, Snails, Width and length ratios, Fruit germinating and salinity. Investigating attaching organisms., Scat analysis, Plasmolysis, Leaf angles, Mangrove decomposition, Organic mud components and organism, Salt excretion rates, Salt secretion, Salt levels in leaves, productivity, distribution and tides, Mud salinity Fish and mangroves, Crabs, succession, Mangrove zonation, biomass, identification keys and more

Code: F 13P Mangroves in focus 2nd edition

Price: \$150 Users: 1

Pages: 160 pps

Teachers Information

Suitable for students who want projects and lab exercises that will enhance their chances of doing tertiary studies.

Contents

Ch 1 Classification and biodiversity

Classification systems Biodiversity Variety and abundance of life

Ch 2 Anatomy, physiology and adaptation

Anatomy and physiology Adaptations Reproduction

Ch 3 Ecology and succession

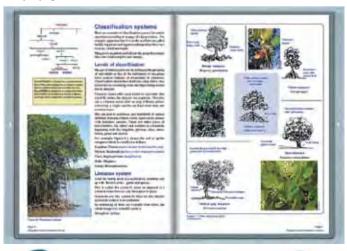

Ecological succession

Ch 4 Conservation and sustainability

Economic value of mangroves Threats to mangroves Management issues Species descriptions Glossary

Our web site also lists the lab experiments and field work

Code: F 14P Aquaculture school projects 2nd edition

Price: \$150 Users: 1

Pages: 120 pps

Teachers Information

Suitable for students enrolled in courses that deal with marine and aquaculture technology.

Contents

Introduction

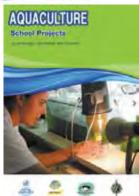

Ch 1 Making project equipment

Ch 2 Maintaining water quality

Ch 3 Livestock biology

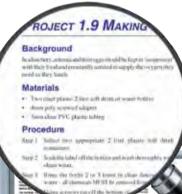

Ch 4 Growing food for Aquaculture

Ch 5 Breeding and feeding stock

Projects

Making an air filter for algal cultures, an algal growth container, a small glass aquarium, a plastic tub aquarium, a crayfish tank, an artemia hatchery, grow out tank, a turbidity tube, a salinity hydrometer. Testing water for water quality, pH. Making a biofilter, undergravel filter, an algal scrubber, a water sampler, a syphon, a fish measurer. Making a crayfish restrainer, crayfish measurer. Squid and prawn dissections, Determining the sex of Artemia, Decapsulating artemia, Hatching artemia, Breeding crayfish, Hatching crayfish and much more

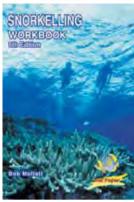

Code: F 16R Snorkelling workbook

Price: \$90 per yr

Users: 30

Pages: 80 pps

Teachers Information

Suitable for either

students who want to go to university

or

those who don't.

Activities

This flipbook describes the original Snorkelling content, exercises and worksheets, only this time in colour.

Contents

Ch 1 Physics and physiology

Ch 2 Snorkelling equipment

Ch 3 Snorkelling practices

Ch 4 Snorkelling first aid

Ch 5 Dangerous creatures

Ch 6 Risks, weather and safety

Ch 7 Action research projects

Ch 8 Regulatory requirements

Code: F 17P Snorkelling worksheets

Price: \$120 Users: 1

Pages: 31 pps

Teachers Information

Suitable for either

students who want to go to university

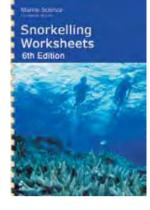

or

those who don't.

Worksheet titles

- 1 Snorkelling and the eye
- 2 Respiration and snorkelling
- 3 The sinuses
- Circulation and temperature 4 control
- 5 Effects of pressure
- Bovle's law 6
- 7 Snorkelling and the ear
- 8 Pressure and sound
- Buoyancy and snorkelling 9
- 10 Skin cancer
- 11 Equipment use
- 12 Equipment care
- 13 Aquatic materials and the sea
- 14 Entry and exit
- 15 Finning
- 16 Duck diving

- 17 Clearing your mask and snorkel
- 18 Water safety skills (DRSABCD)
- 19 What if?
- 20 Dangerous creature ID
- 21 Snorkelling first aid
- 22 Reducing snorkelling risks
- 23 Safety considerations
- 24 Emergency planning
- 25 Research project risk assessment
- 26 Pool science activities

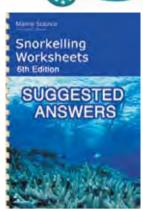

Code: F 18P Snorkelling worksheet answers

Price: \$50 Users: 1

Pages: 17 pps

Teachers Information

Suitable for teachers who want a copy of the answers to (F17P) Snorkelling worksheets

Activities

When printed out, this pdf file contains the suggested answers to F17P Snorkelling worksheets.

Use on school intranet

You can place the pdf file on the school server and then get students to download the questions for revision, homework or when you are away.

Warning to students

 Our web page warns students that we monitor sales of this product and notify schools of student purchases.

Price: \$150 per yr

Users: 30

Pages: 80 pps

Teachers Information

Boatsafe approved course notes, trip planning, navigation, weather, tides, emergencies, manoeuvring, personal water craft

Contents

- Ch 1 Safety obligations

 Main parts of a recreational
 vessel, pre-departure checks,
 seaworthiness of the vessel
- Ch 2 Navigation. The COLREGS, navigation at night and times of poor visibility, IALA buoyage system A, other navigation directives, GPS navigation system use and limitations
- Ch 3 Weather and tides.
- Ch 4 Emergencies. First aid, marine incidents, Fire on board, Grounding, Marine radios, Emergency radio calls
- Ch 5 Manoeuvring
- Ch 6 Personal water craft. General safety obligation, Types and propulsion, Pre-departure checks, Manoeuvring, On water skills

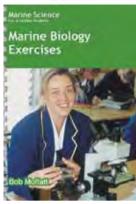

Code: F 19P Marine Biology **Exercises**

Price: \$120 Users: 1

Pages: 70 pps

Teachers Information

Suitable for schools who want exercises and activities to keep students "on task" who use F01 Marine

Science for Australian Schools.

Contents

Part A Mangroves and seagrasses

Part B Exposed shores and coral reefs

Part C Classification

Part D Marine ecology

Part E Lab and field work

Exercises match our textbook - F01 Marine Science for Australian Schools

Our web site lists all 50 exercises

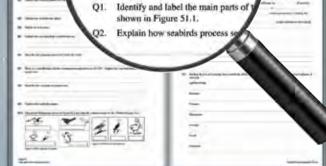

2. How do sea birds surviv

Our web page warns students that we monitor sales of this product and notify schools of student purchases.

Code: F 28R Safe Surfing Workbook

Price: \$90 per yr

Users: 30 Pages: 64 pps

Teachers Information

When read on line, this flipbook contains the original Safe Surfing workbook designed for school surfing programs.

Contents

Ch 1 Surf conditions

Ch 2 Dangerous conditions

Ch 3 Safe surfing

Ch 4 Equipment for surfing

Ch 5 Rules of the surf zone

Ch 6 Marine safety professionals

Ch 7 Fitness for surfing

Ch 8 Basic surfing skills

Ch 9 Basic surfing first aid

Ch 10 Basic surfing rescue procedures

Ch 11 Surfers as environmental ambassadors

Glossary of terms

Safe Surfing 2nd Edition

after we sell off our hard copy books

Code: F 29P Safe surfing worksheets

Price: \$120 Users: 1

Pages: 15 pps

Teachers Information

This is a printable version which is designed to be used with F 28R Safe Surfing Classroom Notes.

Written answers can then be recorded by students as they read the book on line.

It gives students something to do on the days you can't go surfing.

Worksheets

- 1 Surf conditions
- 2 Dangers in the surf
- 3 Safe surfing
- 4 Equipment for surfing
- 5 Rules of the surf
- 6 Marine safety professionals
- 7 Fitness for surfing
- 8 Basic surfing skills
- 9a Basic surfing first aid
- 9b Basic resuscitation10 Surfing rescue procedures

11 Surfers as environmental ambassadors

Code: F 30R National Powerboating Workbook

Price: \$150 per yr

Users: 30

Pages: 112 pps

Teachers Information

Suitable for schools who want notes and activities for student boat licence courses.

Introduction

Ch 1 Boat systems

Ch 2 Pre-trip checks & maintenance

Ch 3 Basic skills

Ch 4 Safety equipment

Ch 5 The boating rules

Ch 6 Trip planning

Ch 7 Regulations

Ch 8 Emergencies

Ch 9 Advanced skills

Glossary

Index

School training record

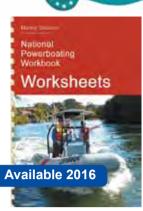

Code: F 31P National Powerboating worksheets

Price: \$120 Users: 1

Pages: 33 pps

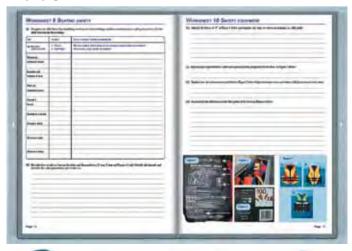

Teachers Information

Suitable for schools who want worksheets for students to complete when they can't do practical boating classes.

Contents

- 1 At the boat ramp
- 2 Boat parts and hull compliance
- 3 Engines and fuel
- 4 Berthing and steering
- 5 Pre-trip checklist
- 6 Routine maintenance
- 7 Check stability, stowage and fueling
- 8 Safety briefing, launch and retrieve a boat
- 9 Boating safety
- 10 Safety equipment
- 11 The boating rules
- 12 Navigation marks and signals
- 13 Lights, flags and rules
- 14 Passage planning
- 15 Weather and passage planning
- 16 Calculate a compass course

- Tides and passage plans
- 18 Tides in secondary locations
- 19 The skipper's boating safety obligation
- 20 Complying with your state regulations
- 21 Your boat's compliance
- 22 Anchoring
- 23 Fire fighting
- 24 Deal with engine failure
- 25 Use a radio
- 26 Activate signalling devices
- 27 Capsized, flooded or grounded boat
- 28 Emergency planning
- 29 First aid and rescue
- 30 Handle adverse conditions
